### Mix and Match

**I offer a range of ways in which you may display your photographs from chic albums to printable DVD's that you may print from yourselves.**

*I charge a standard fee of £40 per hour on the day of the celebration so you can decide if I take photographs from early in the day as the bride gets ready up until the throwing of the bouquet or simply just at the marriage ceremony and the reception to capture the speeches.*

I will discuss the arrangements for use of my time on the day closely with you.

After the event, once I have processed the images, you will be able to view your photographs in your own individual online album (alternatives available). You will have your own personal password to access the album, which you may share with relatives and friends. This allows more personal photographs to be viewed by only those whom you choose. You may then decide how you wish the images to be displayed using one or a combination of suggestions in the following pages. —

**Page 3    Story Albums**

**Page 4    Albums—Classic and Contemporary**

**Page 4    Coffee Table Books**

**Page 5    Canvases**

**Page 6    Thankyou Cards, Parents albums**

**Page 6    DVD, Prints, framed or unframed**

***Gift Vouchers  
are available and can be added to a  
Wedding List as a way to help you  
afford the photography items you wish.***

---

I work in mainly a reportage style, that is catching events as they happen, details and natural expressions allowing your album to be filled with atmosphere and tell the story of your day.

I like to keep the number of group photos to an absolute minimum as no one likes standing around waiting when they can be relaxing with a drink.

The albums are from the Mario Acerboni range of stylish and elegant Italian albums in a range of colours. Album page design is either contemporary or traditional (with mats), telling the story of your day in photographs.
